University of Arizona Press. Paperback. Book Condition: new. BRAND NEW, If a Chimpanzee Could Talk and Other Reflections on Language Acquisition, Jerry H. Gill, How is it that chimpanzees can learn to "speak" at a higher level than some so-called wolf children? What happened that day in the pumphouse, when Helen Keller suddenly grasped the meaning of words? And picture this: a father and mother who shun the advice of professionals, who doggedly force their way into the closed world of their autistic son, and who reverse his grim prognosis, revealing him to be gifted. How to explain? In this book, a philosopher combines these famous cases with a lifetime of study to examine the threshold of language--that point "between speech and not quite speech." He provides fascinating accounts of the deaf and blind Helen Keller, of chimpanzees like Washoe, and of feral children such as Victor, the "wild boy of Aveyron," putting a new spin on their stories. Where does it come from, that uniquely human power to transform perception and action into thought and the singular activity we call speech? Here is evidence that, for chimp or child, the crucial factors in acquiring language have less to do with intellect and everything to do with social interaction. Rather, he emphasizes imitation and reciprocity--for example, playing pat-a-cake with a baby--as essential to becoming part of a speaking community "and thereby becoming a human being." In addition, Gill gives dozens of examples to show how gesture and facial expression both create and change the meaning...
