

Applied Chemistry Volume 1; Water, Detergents, Textiles, Fuels, Etc

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

To save **Applied Chemistry Volume 1; Water, Detergents, Textiles, Fuels, Etc** eBook, remember to refer to the button under and download the file or get access to other information which are in conjunction with APPLIED CHEMISTRY VOLUME 1; WATER, DETERGENTS, TEXTILES, FUELS, ETC book.

Not Avail, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 Excerpt: .concentrated solutions, but tends to decompose in the presence of small quantities of impurities, such as are usually found in commercial preparations. Determination of the Amount of Hydrogen Peroxide or of Available Oxygen in a Solution of Hydrogen Peroxide. The amount of hydrogen peroxide, or of available oxygen, in a solution of hydrogen peroxide, can be determined by several different methods: --I. By Determining the Amount of Iodine Liberated from an Acidified Solution of Potassium Iodide.--Hydrogen peroxide, like other oxidising agents, liberates iodine from an acidified solution of potassium iodide, and if considerable excess of sulphuric acid is present, the reaction may be made use of quantitatively. $H_2O_2 + 2HI \rightarrow 2H_2O + I_2$ 34 2 x 127 17 127 The iodine thus liberated can be titrated with decinormal sodium thiosulphate solution, as described under bleaching powder (seep. 137). The above equation shows that 17 parts H_2O_2 liberate 127 parts iodine, and since 1 c.c. N/10 sodium thiosulphate = 0.0127 gm. iodine, \therefore 1 c.c. N/10 sodium thiosulphate = 0.0017 gm. H_2O_2 . Or, since 17 parts H_2O_2 give 8 parts available oxygen, 1 c.c. of N/10 thiosulphate = 0.0008 gm. available oxygen . If the strength of an approximately 10 volume solution of hydrogen peroxide is required, dilute the solution 1 in 5, and to 10 c.c. of the diluted solution add 10 c.c. of a 10 per cent. solution of potassium iodide and 30 c.c. of dilute sulphuric acid. After standing for a few minutes, titrate...
