## Quantum Space-Time Dynamics

By Hontas Farmer

Bellwood Scientific Press. Paperback. Book Condition: New. Paperback. 60 pages. Dimensions: 11.0in. x 8.5in. x 0.2in. General Relativity and Quantum Field Theory. The glaring theoretical problem for 21st century physics is how to unite the two great theories of 20th century physics. I have done just this by considering the problem from a fresh new perspective. The result is a theory that is mathematically simple and elegant. Based on one postulate I am able to derive a very simple mathematical formulation. Using this formulation I find results for the Schwarzschild radius of a black hole, the bounce of a neutron in Earth's gravity, and the entropy of a black hole. I also have discovered that space-time is in fact a conserved quantity. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

### Reviews

*It is great and fantastic. Better than ever, though I am quite late in starting to read this one. Your life period will likely be transformed once you comprehensively read this book.*
